

KRS-One Lyrics

"Life Interlude"

(feat. DJ Wize)

[cut and scratched: "Life"]

[KRS-One:]

With every breath I breathe I choose life for the children
With every breath I breathe I choose a wife and good livin
With every single breath that I ingest I am given
A smidgen to make life-changin decisions, listen
My mission with precision will position our children
by the millions to start buildin our culture for the billions
and trillions of people comin after us
If they doubt, they won't be as fast as us
Cause in our time we kick a new power rhyme
We keep renewin your mind, cause soon you will find
That every single breath that I breathe keeps us conscious
Enough to perceive and achieve if you believe
But oxygen comes from the trees
Without air for four minutes forget it you catchin some Z's
So which is really conscious, us or nature?
Maybe the trees wish to elevate the paper
And maybe this was just the fall
To forget that nature thinks, we doin nothin at all
And this is the way of the world
The world meanin the conscious nature and the earth that swirls
Like buffalo girls we go 'round the outside
Kris is controversial but Kris never lied
In the forest, the mountains and the hills I reside
You gotta follow the purpose you feel inside

[cut and scratched: "Life"]

[KRS-One:]

With every single breath I choose
With every single breath I move
With every single breath I prove
With every single breath I use
With every single breath I snooze
With every single breath I cruise
With every single breath I choose life
Not strife
Or strain, some like that I came, to rearrange the game
Others blame and remain the same
Same same, but me the plan is plain
We gotta think more humane...
